Dear Gary

Agvet Code Request – 2026-070-ACR

I refer to your request received by the Australian Pesticides and Veterinary Medicines Authority (APVMA) on 12 June 2026. Your request sought access to the following information relating to 93754 - Blu52+ 4 Week Pool Sanitiser, 88288 - Pool And Spa Sanitiser and 87715 - Spa Fresh Active Spa Sanitiser:

the scientific efficacy evidence actually relied upon by APVMA in satisfying itself that the applicable efficacy criterion was met.

For each product, could APVMA please identify and, where permitted, provide:

- the underlying laboratory efficacy report or reports relied upon;*
- any other scientific evidence or scientific argument relied upon if a laboratory efficacy report was not required;*
- the test organism or organisms and efficacy criterion applied;*
- the sanitiser concentration or approved-use conditions considered;*
- the exposure time and measured performance result, where applicable;*
- any APVMA scientific assessment, evaluation or decision record considering the efficacy evidence; and*
- the basis upon which APVMA was satisfied that the product met the statutory efficacy criterion.*

I am an officer of the APVMA authorised to provide copies of documents or extracts sought under section 8W of the *Agricultural and Veterinary Chemicals Code* scheduled to the *Agricultural and Veterinary Chemicals Code Act 1994* (Agvet Code).

I have identified 8 documents relevant to your request. Some of the documents contain information that is confidential commercial information (CCI).

Section 162 of the Agvet Code prevents the disclosure of CCI except under limited circumstances. A request made under section 8W of the Agvet Code does not authorise the disclosure of CCI whose disclosure would otherwise be prohibited by section 162.

I hereby:

- (a) provide access in full to 4 documents; and
- (b) provide access in part to 4 documents.

Please refer to the [APVMA CCI Practice Statement](#) for information relating to how the Agvet Code defines CCI and how the APVMA receives, generates and stores a large amount of information when performing its functions under the Agvet legislation.

A schedule describing the relevant document/s is at **Attachment 1**.

Review rights

The provision of copies and extracts of documents under section 8W of the Agvet Code is not reviewable under the Agvet Code or by the Administrative Review Tribunal (**ART**).

If you have any questions about this decision, please contact the APVMA via enquiries@apvma.gov.au or on (02) 6770 2300.

If you have any concerns regarding the way your request was handled, you are entitled to lodge a formal complaint with the APVMA. If you wish to do this, please send your complaint to complaints@apvma.gov.au.

Yours sincerely

Phillip Maria
Assistant Director, Agvet Code and FOI
General Law, Information and Compliance
Office of the Executive General Counsel
