

13. Summary of Assessment or Statement of Reasons

13.1	The risk assessment of this product relies on the registration of the reference product, POPPIT SANITISER, product number 39380. As the proposed formulation and the reference product formulation are closely similar satisfaction of section 5A safety criteria, 5B efficacy criteria, 5C trade criteria and 5D labelling criteria is drawn from the fact the nominated reference product is registered. The product includes an approved active, HYDROGEN PEROXIDE. The reference product has no limits on use of information. This product poses no greater risk than the reference product. As per the reference product it is expected that this proposed product: is not, or would not be, an undue hazard to the safety of people exposed to it during its handling or people using anything containing its residues; is not, or would not be, likely to have an effect that is harmful to human beings and is not, or would not be, likely to have an unintended effect that is harmful to animals, plants or things or to the environment.
